

Press Release: EOS Portfolio Company Digital Sports Arena Recognized by the Scotsman

August 2016

Digital Sports Arena (DSA), the Dundee based games studio, and EOS portfolio company, has been recognized by the Scotsman.

DSA's first product offering, Gameday Live has been acknowledged as one of the six best new games developed by Scottish studios. Having already launched Gameday Live in Australia this comes at an exciting time for DSA.

Such recognition speaks to the caliber of DSA's management and their experience, especially considering how robust the Scottish gaming industry has become in recent years.

At EOS we are proud to see others recognize the same talent and ability we have within our collection of portfolio companies.
